

ECGridAS2™

Loren Data Corp.'s **ECGridAS2** is the secure, reliable way to directly connect to the **ECGrid® Interconnect Network**.

With Drummond Group Certified AS2 connectivity, **ECGridAS2** directly connects to virtually any AS2 package on the market. And with the **ECGrid Interconnect Network** on the backend, your customer easily connects to your system, more than 40 value added networks and services, and over 300,000 trading partners worldwide.

ECGridAS2 requires a nominal setup fee, which includes configuration, testing and optional AS2 Connector. The monthly access fee includes unlimited KCs to **ECGrid Service Providers** and other **ECGridAS2** customers. Connectivity to other VANs is provided at very competitive rates.

All **ECGridAS2** accounts include their own web interface, allowing configuration tools, real-time monitoring of traffic and on demand reporting. Being a part of the **ECGrid** offering, **ECGridAS2** will also be tightly integrated with **ECGridOS™**, the next generation in electronic commerce operating systems.

The following schedule makes **ECGridAS2** the best value EDI connection on the market:

ECGridAS2™ Retail Rate Schedule April 2007

Mailbox with 1st Qualifier/ID

Setup (no annual fees)	\$99.95/one time
Access (including unlimited KCs* within ECGrid)	\$29.95/month

Optional

Each additional Qualifier/ID	\$9.95/month
1,000kc block to ECGrid Interconnects	\$24.95/month
100kc block to GXS	\$4.95/month

*1 kc = 1,000 characters

Join over 9,000 companies who use the **ECGrid Interconnect Network** by making **ECGridAS2** your best-value EDI connection today.
